CAB IN FRONT OF ENGINE.

Type of Locomotive Used in

Some Railroad Systems. An oil-burning engine with the cab on the front end has been in operation on the Pacific coast for some time and locomotives of this construction have also been in use for several years on Italian railways. The Southern railway (of Italy) has recently added to its equipment some four-cylinder compounds of this type.

They are of the ten-wheel class, with the cab in front of the truck and firebox and the cylinders at the rear end. The coal is carried in bunkers at the side of the firebox (four tons capacity), and the tender has a cylindrical tank. The firebox is of the Belpaire type and extends over the frames. The cylinders are all in a row behind the smokebox (at the trailing end of the frames), and all of them drive the middle driving

The arrangement of the cylinders and valves is peculiar. The two highpressure cylinders are on one side and the steam distributor is controlled by a single piston valve and Walschaert valve gear. The two lowpressure cylinders are on the opposite side and are also served by a single piston valve and valve gear. The engine has six driving wheels. In front of the cab is a small platform with side steps.

New Microbe of Consumption. be cured, says a St. Louis dispatch, gration is increasing rapidly. was the statement made by Dr. Fred Kolbenheyer of St. Louis, who, at the tuberculosis congress, explained the discoveries of Prof. Otto von Schroen of the Royal university of Naples, grets the opportunities he has wasted Prof von Schroen was unable to be

present and sent his paper to be read. Prof. von Schroen explained that a patient suffering from consumption could live for years in apparent health, but under favorable circumstances the germ of the disease would become act ive and destroy the lung tissues. In cases of phthisis of the lungs, the professor said, he had discovered a new germ, which, together with the germ that had hitherto been known to doctors to destroy all animal life, existed only in cases of phthisis of the lungs.

A committee of four was appointed to enlist the assistance and co-operation of prominent educators, manufacturers, philanthropists and others who may be able in various ways to assist in carrying on a strong educational campaign against tuberculosis.

Dangerous Use of Arnica. While arnica is one of the drugs

included in nearly every household medicine chest, it is doubtful if the average mother, who is wont to apply it so freely to the fingers and toes of her litle ones, realizes the risk she runs. Although many home remedies quantity, together with the superior call for the use of arnica, it is said to quality of Defiance Starch makes it be highly dangerous to apply it to the skin unless greatly diluted. One part arnica to five parts water, the proportions commonly advised, is said to form a lotion the use of which is attended with great danger. A correspondent who has looked up the subject says that arnica should be diluted more than ten times. "If used in full strength," she says, "arnica will cause paralysis. A good combination is that of one teaspoonful of arnica to four tablespoonfuls of witch hazel, and even then it should be used in moderation, as experience has shown. -Chicago Evening Post.

"Dear Mrs. Pinkham: — Gratitude compels me to acknowledge the great merit of your Vegetable Compound. I have suffered for four years with irregular and painful menstruation, also dizziness, pains in the back and lower limbs, and litful sleep. I dreaded the time to come which would only mean suffering to me.

"Better health is all I wanted, and cure if possible. Lydia E. Pinkham's Vegetable Compo ad brought me health and happiness in a few short months. I feel like another person now. My aches and pains have left me. Life seems new and sweet to me, and everything seems pleasant and easy.

"Six bottles brought me health, and was worth more than months under the doctor's care, which really did not benefit me at all. I am satisfled there is no medicine so good for sick women as your Vegetable Compound, and I advocate it to my lady friends in need of medical help."—Mas. B A. BIANCHARD, 422 Broad St., Nashville, Tenn.

When women are troubled with irregular, suppressed or painful menstrua-tion, weakness, leucorrhoea, displacement or ulceration of the womb, that

bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excita bility, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for troubles. Refuse to buy any other medicine, for you need the best.
